

IACP 2010  
RONTAN NORTH AMERICA PRESENTS THE MOST INNOVATIVE AND REVOLUTIONARY TECHNOLOGY FOR  
EMERGENCY VEHICLE LIGHTING...  
THE *Wide E Tech*<sup>®</sup> TECHNOLOGY.

... And then the light was made.

In 2010 Rontan has already launched several new products that were designed with our philosophy that we guarantee MAXIMUM visibility of vehicle lighting from every angle. Among these products there is the amazing QuasarLight<sup>®</sup>.

Products that came from one original idea - QuasarDOT<sup>®</sup>, the father of QUASARLIGHT<sup>®</sup> product lines. Its first children were QuasarLine<sup>®</sup>, QuasarDelta<sup>®</sup>, QuasarLine Double<sup>®</sup> and QuasarDelta Double<sup>®</sup>; and the family continues to grow with the QuasarStrobe<sup>®</sup> and QuasarTube<sup>®</sup>. Now using the flexibility of the QuasarLight<sup>®</sup> and futuristic style, the lightbar will be born that will announce all the needed power for those who protect us – the new **ATTACK LIGHTBAR**<sup>®</sup> - the auxiliary full-size roof mounted lightbar; leading technology for the law enforcement industry.

In 2011, Rontan will innovate again, and deliver even more overt power with a complete line of new lightbars; a result of a visionary idea, matched with the originality and strength of new technologies and with the highest of intelligence. Proof to our motto – INNOVATIVE DESIGNS • INTELLIGENT SOLUTIONS.

It is our greatest pride, from engineering of the future — the first lightbar using our *Wide E Tech*<sup>®</sup> technology, the brightest lightbar of all: the new **MAXIMUM LIGHTBAR**<sup>®</sup>. It is the highest form of security and safety Vehicle Lighting, saving lives of those who are saving lives for us.

Along with this lightbar also comes a whole new line of lightbars, using the newest *Wide E Tech*<sup>®</sup> technology that will revolutionize the signaling industry.

And so with all the capacity, strength and intelligence, Rontan continually works to always bring the best, because **Our Light is our Greatest Power**<sup>®</sup>.
